TableCornerSaver.com
or call 716-861-3355.

Table Corner Saver, LLC
8750 Main Street
Buffalo, NY 14221

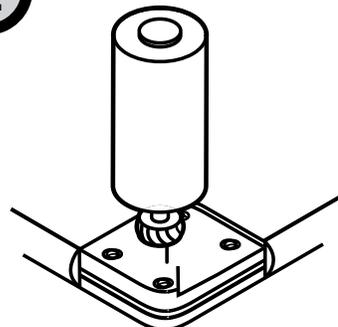

1

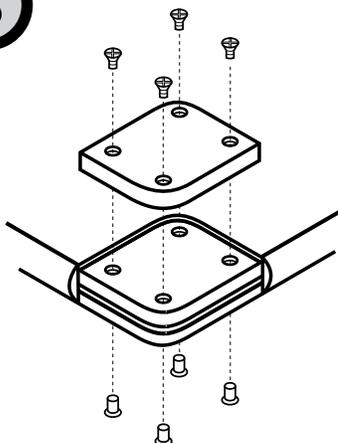

Using the Corner Saver for a template, cut and fit to corner of table and remove the bull nosing on the table edge. **LEAVE** the flange in the table. Corner Saver will secure the edging in place.

2

Scribe a line around the edge of the Corner Saver with a utility knife and then rout out the table a mere 1/16" deep to allow the Corner Saver to become flush with the table top.

3

Using the Corner Saver as a template, mark and drill four 5/16" holes and countersink each hole. Fasten the Corner Saver with the four bolts and "T" nuts provided.
